

# HOUSE OF HADASSAH

## Project Vision

A place for young adults to find healing, to learn and - in time - to grow into leaders who raise up leaders.

## Mission

To provide immediate shelter, holistic support, academic bridge programs, and emotional, spiritual, and technical empowerment that will enable five young adults to continue in education and build self-reliant futures.

## Focus Group

Vulnerable post-high-school girls aged 16-22 who lack stable shelter, housing security, or safe pathways to pursue higher education.

The group includes survivors of exploitation, those experiencing homelessness, unaccompanied youth, and those aging out of care.

## Summary

House of Hadassah\* - the first planned rescue initiative of the Camp David programme - will foster a culture of mutual mentorship, resilience, and leadership. From this home, house parents will provide emotional, spiritual and academic support to the participants as they transition into further education.

*\* Meaning: myrtle. The myrtle tree in the Bible is a symbol of beauty, blessings, restoration, and God's faithfulness. It represents the flourishing and abundance God desires for His people.*

## Project Pillars

---

1. Safe shelter
2. Basic needs stabilisation (meals, clothing, healthcare access, and security).
3. Spirituality, purpose, and values.
4. Education Access Bridge
5. Technical and Career Pathways

## Objectives

---

1. Provide a safe and supportive environment for the girls.
2. Equip them with essential computer skills.
3. Offer spiritual mentorship through Bible study sessions.
4. Build their confidence and self-reliance through technical skills training.
5. Sponsor and support their transition into college or university education.

## Programme

---

Following the release of the national examination results, there is typically an eight-month transition period before students enrol in university or college. During this period, the five girls residing in the Rescue House will participate in a structured program designed to empower them intellectually, technically, and spiritually.

### *Learning Schedule*

- **Computer Studies.** A four-month computer training course will equip the girls with essential digital skills.
- **Bible Study Program.** A two-month discipleship and mentorship program will focus on: spiritual growth, personal development, character building, guided group sessions.
- **Technical Skills Training** - A two-month skills development program in a selected technical area such as: peer counselling, life skills training, mental health awareness, career guidance sessions for high school students, talent development workshops/music, any other skill depending on availability and interest.
- **College/University Education** - upon completion of the 8-month program the girls will be sponsored to pursue their preferred courses in accredited colleges or, if funds and academic results allow, universities.
